

FRESH GARLIC

PRODUCT DESCRIPTION

Common name	FRESH GARLIC
Type	Conventional
Varieties	Napurí - Chino
Scientific name	Allium sativum
Family	Amaryllidaceae
Departure	0703209000

Garlic is much more than a seasoning, it is loaded with nutritional properties and health benefits (sulfuric compounds and their multiple phytonutrients). Its regular consumption can help improve digestion, better absorb nutrients from food, and also optimizes the functions of the pancreas and liver.
